

## Where's Tammy Wynette

Kellie Pickler

I stay torn between killing him and loving him  
He stays torn between neon lights and home  
How 'bout a honky tonk angel  
To tell me how this whole thing works

Where's Tammy Wynette when you need her?

I got a pack of camels I'm fixing to open  
'Cause I got an apron I'm fixing to tie on  
Tell me how you fry a skillet of chicken  
In high heels and a skirt

Where's Tammy Wynette when you need her?  
Where's Tammy Wynette when you need her?  
Like a tease comb for a mess of hair  
'Cause you're trying to keep your man  
From that hussy over there  
And a cheap dress, tube top  
Looking for a cat fight  
Pretty little bar fly  
Doesn't think that I'm the kinda  
Good girl that's gonna go bad

Where's Tammy Wynette when you need her?

He's gonna sleep in them cowboy boots  
On that couch tonight  
I'm gonna sit at that kitchen table  
With a bottle of wine  
I'm gonna search that midnight radio  
'Til I find something that hurts

Where's Tammy Wynette when you need her?  
Where's Tammy Wynette when you need her?
