

## Strange World

The Kelly Family

Flowers and lights are taking my feet off the ground  
And I'm flying speeds completely unknown to man  
No one can help me once I'm off to dreaming time  
I've entered that world and I'm on my own  
And I feel it all right

It's a strange, strange world  
That I live in  
It's a strange, strange world  
At night  
Mama Mary, what you got cooking for me this time  
I swear I saw the devil running across the room last night  
Doctors and dioxine ain't gonna medicate me, no  
Darling in your arms I'll be fine with a cup of tea

Well I, I'm a paranoid schizophrenic being  
What about the monkey talking nonsense on TV
