

Thunder

The Kelly Family

I came down to see you
but you were never there
you were always lonely somewhere
I came down to love you
but you were never there
but you're always parting somewhere

Hold on, don't leave me lonely
Hold on, don't leave me lonely
hold on, don't go without me

Tell me what's the game now
'cause i'm feeling kind of jealous
you're going out with friends now somewhere

I'm gonna get my guitar
and strum down all the pain
i think i'm going crazy, beware

Hold on, don't leave me lonely
Hold on, don't leave me lonely
hold on, don't go without me
I'm gonna let nobody, gonna let nobody love you
Gonna let nobody love...

Thunder bloody bloody thunder
bloody thunder is on its way (4x)

I came down to see you
but you were never there
you just left me lonely somewhere

Hold on, don't leave me lonely
Hold on, don't leave me lonely
hold on, hold on...
hold on, don't leave me lonely
hold on...

I'm gonna let nobody, gonna let nobody love you
Gonna let nobody love you...
