

Take It All Out On You

Kelly Willis

You better look out you're gonna get it I'm gettin' worried for
you

You got no idea what you're gettin' into

I've been alone for all these years I know you've been hurting

This world can be hard on a boy like you

I know I know what you've been through

That ain't no reason to keep you feeling blue

Oh why this burning inside me searchin' for someone to satisfy
me

So much love what am I gonna do I'll take it all out on you

It doesn't matter what's the matter you do what you gotta do

If it comes down to you need me and honey I need you

Oh let me tell you darlin' my love is true

Oh why this burning inside me...

[guitar]

Oh why this burning inside me...

Oh why this burning inside me...

I'll take it all out on you yeah I'll take it all out on you
