## Take It All Out On You

**Kelly Willis** 

You better look out you're gonna get it I'm gettin' worried for you You got no idea what you're gettin' into I've been alone for all these years I know you've been hurting This world can be hard on a boy like you I know I know what you've been through That ain't no reason to keep you feeling blue Oh why this burning inside me searchin' for someone to satisfy me So much love what am I gonna do I'll take it all out on you It doesn't matter what's the matter you do what you gotta do If it comes down to you need me and honey I need you Oh let me tell you darlin' my love is true Oh why this burning inside me... [ guitar ] Oh why this burning inside me... Oh why this burning inside me... I'll take it all out on you yeah I'll take it all out on you
