

# Looking at Stars

Kelsea Ballerini

The night is young and so are we, so you what you say  
We go and see it all for ourselves?  
Yeah, yeah  
There's a spot I know down the road we can go  
Only me and you and no one else  
Yeah, yeah

I ain't looking for a crowd  
Another night on the town  
I want a one way ticket where the creek and crickets  
Are the only sound

So baby, pick me up, I'll be in the drive  
Take me where the moon's hanging in the sky  
We can park it by the river, get out and throw the tailgate down down down  
You can steal a kiss, maybe even two  
Only the truck and the trees gonna see what we do  
All I wanna be is wrapped in your arms, laying in the dark,  
Looking at stars

We can rename constellations while we're making wishes  
Don't it make you feel so small?  
Yeah, yeah  
We can talk about forever for a minute, maybe never,  
Just kiss and say nothing at all  
Yeah, yeah

Baby, hurry up and get here  
So we can disappear  
The clouds are breaking, don't keep me waiting  
Never seeing a night this clear

So baby, pick me up, I'll be in the drive  
Take me where the moon's hanging in the sky  
We can park it by the river, get out and throw the tailgate down down down  
You can steal a kiss, maybe even two  
Only the truck and the trees gonna see what we do  
All I wanna be is wrapped in your arms, laying in the dark,  
Looking at stars

I ain't looking for a crowd  
Another night on the town  
I want a one way ticket where the creek and crickets  
Are the only sound

So baby, pick me up, I'll be in the drive  
Take me where the moon's hanging in the sky  
We can park it by the river, get out and throw the tailgate down down down  
You can steal a kiss, maybe even two  
Only the truck and the trees gonna see what we do  
All I wanna be is wrapped in your arms, laying in the dark,  
Looking at stars

Oh, yeah  
Oh, yeah
