

# Love Me Like a Girl

Kelsea Ballerini

Sometimes I don't like what's in the mirror  
Uncomfortable standin' in my skin  
Yeah, sometimes I feel a little broken  
Doesn't mean I need to be put together again

So, when I'm cryin'  
Baby let me cry  
Don't fix it  
Don't try to make it right

I wish you could love me like a girl  
I wish you could love me like a girl  
Cause my friends, they don't hurt me, baby, not like you  
Yeah, I wish you could know me, baby, like they do  
I wish you could get inside my head  
Baby, maybe then you'd understand  
Why I wish you could love me like a girl

I know, you don't mean to be insensitive  
And I know, you're never tryin' to brush me off  
The truth is me and you, we're wired different  
So it makes sense sometimes we get crossed

So when I'm cryin'  
Baby pour some red  
When you want to kiss it better  
Listen instead

I wish you could love me like a girl  
I wish you could love me like a girl  
Cause my friends, they don't hurt me, baby, not like you  
Yeah, I wish you could know me, baby, like they do  
I wish you could get inside my head  
Baby, maybe then you'd understand  
Why I wish you could love me like a girl  
I wish you could love me like a girl

I love the way you make me feel like I'm safely  
In the palm of your hand  
And I love the way you hold me, in the dark, babe  
Yeah, just like a man

But I wish you could love me like a girl  
I wish you could love me like a girl  
Cause my friends, they don't hurt me, baby, not like you  
Yeah I wish you could know me, baby, like they do  
I wish you could get inside my head  
Baby, maybe then you'd understand  
Why I wish you could love me like a girl
