

Friend Today

Kem

Ripped Straight from the headlines
The devil's on every page
Keep away from the spotlight
'Cause people are drifting away

And I just wonder
If you're my friend today

Ooh
Yeah, yeah, yeah

There's a roll like thunder
They killing our babies, Lord
They headed straight for the border
And we can no longer ignore it

I just wonder
What the hell we fighting for?

Ooh
The hell we fighting for?

The crowds been running in place
Like ain't nobody else around
But you and I
We get by
And how much love won't it take
Before it all comes burning down, it ain't right
No, it ain't right now, baby
And I just wonder
I just wonder
I wonder

If you're my friend today
Ooh
My friend
My friend
My friend today
Oh my, my
Friend today
Ooh, ooh
