

Live Out Your Love

Kem

Everyday I wake up
In my feelings for you
And I imagine all the ways I wanna love you, girl
This aching
It's divine
And it's taking me back in time
To the moment we met
And how I waited for you
To tell me all these little things about you
Like Purple Rain
That's your favorite movie
And you were made in heaven just for me

I'm in love again
Girl, you keep the game switched up
I'm in love again
Yeah, you got the magic touch
I'm in love again
I'll do whatever you want me to do
I'm in love again
With you

Girl, the way you opened up
Was so honest and true
'Cause I'm no longer in this world without you
Maybe I'm stuck in time
Or maybe your heart's right at home next to mine

Hey girl, why you'd stay with me
Through all the ups and downs in life and love is a mystery
You've got guts
And you're amazing
And I'm not just your man, I'm your baby

I'm in love again
Girl, you keep the game switched up
I'm in love again
Yeah, you got the magic touch
I'm in love again
I'll do whatever you want me to do
I'm in love again
With you girl

Live out your love (Live out your love)
Live out your dreams (Live out your dreams)
I give you my heart, girl, I'm yours eternally
Live out your love (Live out your love)
Faithfully (Faithfully)
Girl, here in your arms, is where I want to be, ooh

Live out your love
Live out your love
Live out your love
Live out your love
Baby

Live out your love, girl

Live out your love
Live out your love
Live out your love
Ooh baby
Live out your love

Live out your love
Live out your love
Gotta find our way
Please listen, baby

Live out your love
Live out your love
Live out your love, darling
Live out your love

If you want it, baby
And you need it, girl
Get your love
Get your love
Live out your love
Live out your love
You better get your love
