

Praise

Kem

Let the night, find you
Don't be afraid
Swallow your pride and be thankful
Before it's too late

Do you wanna feel my love?
Do you wanna make your dreams come true?
Then you gotta lift your praise
Or just live with these lies

It's a waste of time to be hateful
When love's all the same
You'd be wise to be grateful
Or it's just a charade

You make it what you want it to be
Without love it's a crime
How could you be right for so long?
And be losing your mind, ooh, we

Do you wanna feel my love?
Do you wanna make your dreams come true?
Then you gotta lift your praise
Or just live with these lies, alright

Do you wanna feel my love?
Do you wanna feel my love?
Do you wanna feel my love?
Do you wanna feel my love?

Do you wanna live your dreams?
Do you wanna find peace?
Do you want my love and my joy?
Then open that door
Do you want your life?
Living in mine
It's right here
It's right now
Waiting inside

Do you wanna feel my love?
Hey, yay, lift up your praise
Do you wanna make your dreams come true?
Can you reach the sky?
Then you gotta lift your praise
Gotta lift it
Gotta lift up your praise
For the rest of your days
Let loves light shine on us (Then you gotta lift your praise)
Shine on you, oh
Let your praise go up and the love come down
Loves gonna get your praise
It's alright, your praise, your life
