

# Tonight

Kem

Every life needs another life  
And every heart, another  
And yours, just might, need mine... tonight

Every day is a new day  
And every hour is ours to share  
And every heart needs another heart  
And yours just might need mine tonight... baby, baby

Yours might need mine, tonight, baby.

Every one has heartache  
And everyone gets lonely  
And every love needs another love  
And yours just might need mine tonight...

Yours just might need mine tonight- ohhhh

Everyone needs someone to talk to  
Everyone needs, needs someone to love  
Everyone life needs another life  
And yours just might need mine tonight...

Yours just might
