Tonight

Kem

Every life needs another life
And every heart, another
And yours, just might, need mine[].. tonight

Every day is a new day
And every hour is ours to share
And every heart needs another heart
And yours just might need mine tonight□baby, baby

Yours might need mine, tonight, baby.

Every one has heartache
And everyone gets lonely
And every love needs another love
And yours just might need mine tonight

Yours just might need mine tonight- ohhhh

Everyone needs someone to talk to Everyone needs, needs someone to love Everyone life needs another life And yours just might need mine tonight ...

Yours just might
