

I Want To Stay With You Tonite

Kemuri

I am so messed up, I don't even know where I am
So very tired with myself...
I am so messed up, I can't even see myself now
Beaten up by the society...

I was trying to run away from this world I just didn't have the
attitude
Dirty things of this society, Took away the smallest hope

Does this society need me?

I want to stay with you tonight! I want to stay with you tonight!
Tomorrow in the morning light, I'll buy you a red rose and we'll
smile!

What have I done? What did I do so wrong or
Is that something only the God knows?
What have I done? Why the wind blows against me?
I can't even open my eyes...

I see them laughing and see them enjoying
Seems like they are in a different world (Different World!)
They are very full but I am angry (Angry!)
Angry at what? I don't know!
Does this society need me?

I want to stay with you tonight! I want to stay with you tonight!
Tomorrow in the morning light, I'll buy you a red rose and we'll
smile!

The children starve because of bad politics
The children starve because of loneliness
I have a blanket that keeps myself warm
I have food and water to survive...

Many people have less, so much less than what I have...

Neon lights just too bright! Light up all the desires
Neon lights just too bright! Red, blue, green and yellow...
Take away a darkness from this big city
Take away a place to hide and rest...

I want to stay with you tonight! I want to stay with you tonight!
Tomorrow in the morning light, I'll buy a red rose and we'll smile!
