

What Else

Kemuri

What else do we really want?
What else do we really need?
What else can make us happy?
What else? Do you know?

What else? Do we ask ourselves?
Why must we get more and more?
Before we realize how much
we can hold and we have now!

Some people do not care about
the future 'cause they'll be dead by then!
Some people still question themselves
before they try to fulfill their empty hearts!
Some people try to make a change
Some people try to make a move!

What's gonna happen?
We are here to make a change!
(cho. to make a change!)

What's gonna happen?
We are here to make a change!
(cho. to make a change!)

What else can really exist?
What else can we pass along?
What else can spread the attitude?
What else? Can you tell me please?

What else can make us wanna smile?
What else can keep us satisfied?
What else can light the darkness?
What else? Can you tell me please?

What's gonna happen?
We are here to make a change!
(cho. to make a change!)

What's gonna happen?
We are here to make a change!
(cho. to make a change!)

What else do we really want?
What else do we really need?
