I Know Who You Are

Ken Hensley

```
Don't try to control me
Don't try to console me
Don't bother to write or call
'Cause I've heard it all before

You had me fooled for a short time
With your empty words and your fine lines
But it ain't happening anymore
'Cause I know who you are

You said you'd help me to turn my life around
All you did was to turn it upside down
I can't believe that I gave you so much trust
Now you're trying to turn my rock to dust

People saying I should've seen the sign
You think that playing with lives is not a crime
No matter how hard you try, I will survive
'Cause the moment of truth has just arrived
```
