

Woman

Ken Hensley

Woman you are a mystery to me
You're really not what I thought
You would be from the start

And I've tried just as hard
As any man can
But you never seem to
Understand my heart

Woman

Lady we've been together
For a good long time
But every time I start to think
You're all mine, you stand back

I tried but I'm slowly
Running out of ideas
And my joy is quickly
Turning to tears and that's a fact

Woman, you gotta trust me
If we're gonna stay in love
Then you know
That's the way that it must be
Won't you try a little harder
To understand
