## Coastal

## **Kenny Chesney**

Tank top, love handles
Tube socks, Jesus sandals
Cheap blender, ice bucket
Raw oysters, yeah, give me one and shuck it

Holds up a frozen orange daiquiri
And laughs, here's to the boys at the factory

No more building transmissions He's going deep sea fishing Catch a marlin, catch a tan Catch a local cover band

Hey, you gotta watch that man He'll go coastal on ya

Silver hair, silver Buick Winter's coming, better move it Southbound before they get snowed under Call the kids, tell 'em see you next summer

No more freezing their tails off
It's cataract sunglasses and a round of golf
Red skin, green plaid, margarita, dog track
Before you know it Mom and Dad
They'll go coastal on ya

Sounds so good, got me thinking What do y'all say after I'm done singing

We just take a little getaway Cruise it down the A1A Florabama to the Keys Better keep your eye on me

I'll go coastal on ya
I'll go coastal on ya
Yeah, I'll go coastal on ya
