

Falling for You

Kenny Lattimore

Something's in the air tonight
Don't know what it is
But it feels right
Oooh, should I try this
I'd open up my arms real wide
Take a leap of faith
And hope that I have you by my side

I know you're tired of waiting
Baby, we can take the dive

Falling for you
I'll take the risk, I swear
As long as you're right here
Falling for you
I'll do what I gotta do
As long as I've got you
Falling for you

Feel the ocean, feel the tide
Hold me deeper under
It's alright, it feels like flying
Our love will stand the test of time
I don't need another
'Cause we feel just right
Like footprints in the sand

I know you're tired of waiting
Baby, we should take the dive

Falling for you
I'll take the risk, I swear
As long as you're right here
Falling for you
I'll do what I gotta do
As long as I've got you
Falling for you

I held my breath, had butterflies
On the edge, almost paralyzed
About my future
Feel the momentum
My heart beats faster now
I'm ready now
Cast away, all my fears
I'm learning to fly...

Falling for you
I'll take the risk, I swear
As long as you're right here
Falling for you
I'll do what I gotta do
As long as I've got you
Falling for you
Falling for you
