

Good Life

Kensington

I've had a good life, in the sun
It's been a good time, lost and won
But I'm not saying good night, for one

But if it's gone I must
Face it with a sense of peace
Face it with a sense
And if it's done I must
Face it with a sense of peace
Face it with a sense

I've had a good life, in the sun
Flown over fields and woods and beyond

Good night, hold on
Feels like, no one
Can see

But if it's gone I must
Face it with a sense of peace
Face it with a sense
And if I'm done I must
Face it with a sense of peace
Face it with a sense
And if it's gone I must
Face it with a sense of peace
Face it with a sense
And if I'm done I must
Face it with a sense of peace
Face it with a sense I've had a

Good night, hold on
Feels like, no one
Can see
Can see
Can see
Can see
Me
