

Word Got Out

Keri Noble

I think it's time you heard the truth and it should come from me
I didn't want to tell you this way
Wanted it to happen naturally
Like maybe we could take a walk and I could make you laugh
Cook you dinner at my place
We could see what happens next

But the word got out about me
Didn't know it was so easy to tell
Guess it is just as well that you should know
Even though I've never held you
I don't want to let you go

Now you don't have to say a thing
Sometimes I come on strong
I hope this doesn't scare you away
Just because I put you in this song

But the word got out about me
Didn't know it was so easy to tell
Guess it is just as well that you should know
Even though I've never held you
I don't want to let you go

We could spend the afternoon lying in the grass
How long has it been since someone made you wonder where the day went

But the word got out about me
Didn't know it was so easy to tell
Guess it is just as well that you should know
Even though I've never held you
Even though I've never held you
I don't want to let you go
I don't want to let you go

Yeah, yeah, yeah
Want to laugh want to make you smile
Oh yeah we can take a walk
I want to walk with you
