Nova Prime

Kerion

```
At the age of cyborgs and robots
In the night, the sound of shots
We drive fast through sordid streets
At the time of shelters and buildings
In the dark, a girl is screaming
Is this really the world we live in ?

(The world) we are fighting for ?
Give me the strengh toi
Overcome another day !

At the time of data and control
In the night, hackers break walls
Trans humans fulfill the city
At the time of homeless and ghettos
In the dark, tears of sorrow
Have we lost all our humanity ?

The soul of human kind ?
Give me a reason
To believe in better days !

Rise ! Nova Prime !
Triumph over all your ennemies !
Rise ! Nova Prime !
Death or victory
```
