Riders Theme (Age of Cyborgs)

Kerion

```
My name is Nova Prime...
Captain Nova Prime.

I'm a human... A real human...

I work for TechCorp Industries, leader of robotic engineering.
With my team, we've been hired to find a powerful artifact but
we're not the only ones to look for it. Our world is dominated
by transhumans, IA, robots...

It's the age of cyborgs.
