

In The Meantime

Kerser

They say you can't [?]
They say you can't [?]

Hold me up baby, hold me up, I'm stumblin'
I couldn't get 'em wet out off my head, she said I'm mumblin'
Readin' fan mail, "Kerser, you not hungry man
I like it better back when we could hear your stomach rumblin'"
Music be my hustle man, I ain't gonna change up
Or bust the other rappers, man, we gonna meet some snake cunts
Can't be jealous, that's a feminine trait
You make it in this game, it's like you never gonna escape, mate
What the fuck I even doin' in the meantime?
I grew up in Campbelltown, the endin' at the green line
Got my cash and split to a place where the beach lies
Tryna just relax, don't you go bring out my street side
Doctors had me pillin' up, coppers thought I deal drugs
The whole time I was writin' raps, ain't a [?] bruh
Dreams come true but I don't dream in hue
I dream that one day, I could somehow find a clearer view, phew

They say you can't [?] (They say, they say)
They say you can't [?] (They say, they say)
They say you can't [?] (They say, they say)
They say you can't [?] (They say, they say)

Hardest shit to pick in life could be who you trust
And over reminiscin' prob'ly fuck your future up
Who gon' be there rappin' [?] while they suitin' up
I'm dealin' drugs like it doesn't matter, stupid cunt
Had so many offers, I just pass like I knew nothin'
Couldn't sign, second album, I was too stubborn
I'm in a C-coup, nothin' I can teach you
All you hear is park, 'cause I'm starin' out my rear view
Forever the sickest, I had to get it, I'm in it
I've seen careers come and go, but mine's embedded, it's written
There's no stoppin' the Kers, I'm forever on top
On watch as long as I'm alive, I swear I never will flop
Give you adrenaline shots from the message I drop
I'm like a leader to these people, I could never just stop
But wait, you feel it closin' in, kind of like the day's comin'
How I feel about that man, I'd rather mere not say nothin'

They say you can't [?]
They say you can't [?]

Let's get back into the jist of this
The reason that you fell in love with that, I'm sick as shit
Like my attitude and ego, had you feelin' yourself
I gave you strength when you were down, stopped you killin' yourself
The other side of the Kers effect
The reason why you see the Kerser as a perfect bet
Plus I hustle the game like it was coke barrels
Kerser give you goosebumps till your bones vanish

They say, they say
They say, they say
