

## Just For Now

Kerser

I'm from the hood on man I block it out  
Swear the worlds gone crazy I gotta shout  
At the top of my voice but I feel alone  
Stepping on a plane to go kill a show  
They said I'd never do it but I'm doing it true  
And the biggest risk take is I do it for you  
Haters get mad cause they see me shine  
No attention to you, this here is mine  
I fear the life that'll come when this stops  
Rockstar shit cocaine in ziplocks  
Wish not make moves and rise  
Didn't work first time and I'm doin it twice  
Hot headed, carve on the sentence,  
Marvellous efforts, half of them left this  
But I'm here and I'm standing tall  
They can all get fucked I'm demandin more  
Party time and your free to come,  
Bitch to guy ratio is 3 to 1  
We can get down we can do it right?  
My gift can make you fly  
Lift up, we ain't here for long  
Gotta do this shit before we gone  
Once your gone shit you ain't never come back  
We just want this life, but I'm way too smashed  
And I may just crash and fall from high  
But I made it back I'm forced to write  
Whats on my mind, nothin else,  
Two in your face go fuck yourself  
There it is I ain't leave it too soon  
Do what you do but with who and you knew  
It can't be done like I can do  
I hit ya hard write life for you

[Hook x2]

Time to party  
We ain't stoppin till the sun is rising  
Options never running hiding  
Them problems equals rums and lines  
And anything that you gonn' do  
I promise we gonn' do it better  
Only live this life out once  
And we gonn' make it last forever

Make your mind up kerser gotta go  
Another day we on the road  
Never meant to ride through life  
On a 9 to 5 need brighter lights  
And I made that clear, I made them hear  
Then I made them cheer  
Came back with a name thats raised packs  
No that means at the scene just laid back  
Took it all and I'm takin more  
I'm the one that takes you to that place for sure  
We can leave now are you ready or not  
Gotta go before the energy stops  
And when it does then whose to blame  
Left or right you can choose your fate

I'mma leave ill be back in time  
And I won't remember shit, yeah thats a lie
