

## Rap Now

Kerser

Heard they lookin' when I came through (Where)  
Heard they want me for my earrings and my chains too (These ones?)  
Heard 'em talking 'bout it  
But they never make moves  
Been through everything, there's no way I can break  
Ain't no one alive  
That can tell me that I ain't real  
They want my number  
'Cause my mate sold 'em fake pills  
They say if nothing change you then the fame will  
I been famous ten years and ain't change still  
For the cash, what you fucking think I rap for?  
I just chopped for pounds with a hacksaw  
Mad raw, I'ma pick from where I left off  
We were red hot, when you were sitting on you Xbox  
Let me stop poppin' pills in the new Beamer  
Organize a threesome in a two seater  
Walked into the club with my hat low (Kers)  
I charge double, gotta pay me for my shadow  
These lads know I been rocking the game  
You know how many cunts got pussy  
Just from dropping my name  
I'm saying, just keep hating the Kers  
I can't stop for no photos  
'Cause my mates will get searched  
It's just bizarre

Everybody rap now  
Either that or they sitting in a trap house  
Other half lost they mind or they cracked out  
Sittin' back like wow, this is rap now

Everybody rap now

My hearts cold with that frost bite, right  
When they stabbed me in my back  
That mean they got my spine  
Been doing this for years  
So when I drop my rhymes  
Stop your bitch right in her tracks  
So she stopped by sign  
And I, I take game, I maintain, never miss targets  
I'm big hearted, go too far, when shits started  
Rappers missing like birdwatchers and stumbling crops  
I get buried my words toxic and crashing a lot  
I grab the beat until it runs flat  
Me and Kers always got a backup plan  
And got one stashed  
I drop my kids on your sluts back  
And she can't find a deeper soul  
So she comes back, fun fact  
And what they talking 'bout brother  
Yeah, we run that  
I can mention shit from my past, thinkin' fuck that

Fuck that, I was always cooking like a pump action  
Always lookin' down, rappers gonna get a hunchback

Everybody rap now  
Either that or they sitting in a trap house  
Other half lost they mind or they cracked out  
Sittin' back like wow, this is rap now

I fell in love with the shotty, 'fore I fell for a bitch  
I learned to represent the crew  
And never turn on the clique  
We got the murderous shit  
Yeah, you heard of us bitch  
I get you knocked before the hit  
They tell you, "Kerker is sick" (Whoo)  
I'm the sickest with rap  
I swear motherfuckers too smooth  
You can't get cold feet wearing new shoes  
Translation, ready for whatever bruh  
Never met a better, when I'm penning every letter  
Get a chin check, talk down or assassination  
Have you hiding up inside like it's acid raining  
I've been around, to recede is a distant dream  
This is me, me ran the beat down to smithereens  
Two brothers born strong, we a gifted team  
When we in the room  
Have you shaking like your missus' knees  
Plus we spit 'em all out  
When we spitting frees  
Respected, ask anybody in the scene

Everybody rap now  
Either that or they sitting in a trap house
