

# See Me In Real Life

Kerser

I need to piss and your mouth is my target  
I'm deadset I dunno why you're laughing  
I'm with your girl and she like to call me perfect  
She offended cos her pussy smell like burned fish  
I told the slut move along I'm a king bitch  
Man she dreaming if she ever getting this dick  
I offend a lot of people yeah I know that  
That's half the reason why I fucking want the flow lads  
Settle down slut shut your fucking mouth up  
'Fore I get the scissors out and join your pussy with your butt huh  
What the fucks up come and try censor me  
You're about as relevant as fucking channel V  
They say I take shots that can burn bridges  
I been the same since 'Kerser is the Sickest'  
Never gave a fuck and I speak for my fanbase  
Putting ex pills in your grandmother's pancakes

They can't handle Kerser  
They get scared my words are  
Making their kids murder  
Woah my laugh it burns ya  
Take a sec to realise  
You see me in real life  
Keyboard heroes know this  
They are scared to throw fists

Cruisin' with a fucking ride on lawnmower  
At your front door with a fucking horn blower  
Why they all talk then they can't say shit?  
You as gay as a Triple J playlist  
I'm-a drop C4 on the stairway  
If they ever think of giving me some airplay  
Rather have my dick stuck in an exhaust pipe  
Than hear a bunch of faggots talking like some blonde dykes  
I'm the Aussie rapper that be raising the bar  
The proof is in the pudding check my place and my car  
Skill is right in front of ya  
Aiming for ya jugular  
Take your adam's apple out then I start to jungle bruh  
I'm-a double up everything I make cuz  
I'm at the point where I enjoy it at the bank bruz  
And you can talk all your shit about ABK  
But when you do it can you please make it face to face?

They can't handle Kerser  
They get scared my words are  
Making their kids murder  
Woah my laugh it burns ya  
Take a sec to realise  
You see me in real life  
Keyboard heroes know this  
They are scared to throw fists

I'm-a break it down only way I know how  
I'm on your roof yelling fucking are you home now?  
Take your roof tiles out as I slide in  
You were scared but your missus had a slight grin

I'm like man I be running the game  
These other cunts ain't shit they just running my name  
I got a gun and a blade  
I'm out the front of you place  
I'm like come inside then they end up running away

They can't handle Kersey  
They get scared my words are  
Making their kids murder  
Woah my laugh it burns ya  
Take a sec to realise  
You see me in real life  
Keyboard heroes know this  
They are scared to throw fists
