

# This For The Street

Kerser

Kers one I ain't down with the rap scene  
I just proved I'm a motherfucking cash machine  
Did everything I said I'd do plus more  
One call could have your bitch at my front door  
Last album at the scene like no shit  
And add a world to my bank, I'ma go get  
Everything I can and I'll bring the crew too  
A bunch of crazy cunts, now tell me who to shoot, woo  
We have fun with all the dead set shit, bitch  
Don't get it twisted you could end up dead quick  
I came a long way, you should see the new whip  
And my house, you'd probably want to move in  
Aus rap got it locked, I'm the main man  
Six years at the top and I've stayed there  
You cunts using rocks like a caveman  
Your bitch want me on her body like a spray tan

This for the street, for the ways that you made me  
This for gang members that they called crazy  
This the bomb, this the shit that you wait on  
This is Kers, guarantee I always stay strong  
This for the street, for the ways that you made me  
This for gang members that they called crazy  
This the bomb, this the shit that you wait on  
This is Kers, guarantee I always stay strong

Rocking gold in the club I'm performing in  
Want the check before I even start walking in  
No one else hustle rap like the Kers do  
Got my foot in, getting money was the first move  
I admitted I was broke when I was, bruz  
But now I'm cashed so of course I hold my wads up  
Get a load of me, I'm a fucking superstar  
And rappers hate because no one knows who you are  
Rolling deep in my range and the crew ready  
No cameras here 'cause they wanted and they do the damage  
King Kers, ABK, what you know about  
If you sent your demo, sorry bro I throw 'em out  
I'm a beast when it come to the rap shit  
No talking heads or tails, come and watch some cash flip  
The lads sick in the booth and it's crazy  
Shout out to C-Town, I loved how you raised me

This for the street, for the ways that you made me  
This for gang members that they called crazy  
This the bomb, this the shit that you wait on  
This is Kers, guarantee I always stay strong

Know the Kers, I'm the man with this  
Send you home from my gig in the ambulance  
Or in some bandages, 'cause I can't stand your shit  
And it hurts your pride, 'cause you're a fan of this  
And I dismantle shit with the candle tip

And try to make the shit sharp and hit your man with this  
ABK, bitch, so you've heard of us  
The realest rapper 'round, yeah we serve it up, cunt
