

Common Sense

Kevin Bloody Wilson

Common sense, ain't that common, anymore,
Seems common sense is past tense just like the dinosaur,
Political correctness has got a lot to answer for
'Cause common sense, ain't that common, anymore,

Political correctness, what a croc'a shit,
If it's political it ain't correct, those two words don't fuckin' fit,
Nor do military intelligence, friendly fire and holy war,
But common sense, ain't that common, anymore,
Words made up by academic fuckwits who hide in little fart-filled
rooms,
Throwin' random words together, 'cause they got fuck all else to do,
Starts out as yuppie jargon, ends up fuckin' law
'Cause common sense, ain't that common, anymore.

Common sense, ain't that common, anymore,
Seems common sense is past tense just like the dinosaur,
Political correctness has got a lot to answer for
'Cause common sense, ain't that common, anymore.

Words like illegal immigrant, is that a fucked up double or what?
If you're an immigrant g'day and welcome, if you're illegal, fuck off,
And who's them low-life toe-rags lettin' 'em sneak through our
backdoor?
'Cause common sense, ain't that common, anymore,
Racist there's one overused word that's laced with toxic venom,
Spat out by every do-gooder and minority group when you don't
agree with 'em,
Mate, this is Australia, one size fits all
But common sense, ain't that common, anymore.

Common sense, ain't that common, anymore,
Seems common sense is past tense just like the dinosaur,
Political correctness has got a lot to answer for
'Cause common sense, ain't that common, anymore.

Petty crime there's no such thing some poor bastard's gotta pay,
Here's two words that just might work, rattan cane,
We don't need a fuckin' police service, bring back the police force
'Cause common sense, ain't that common, anymore,
So all you soft cock politicians try gettin' your head around this,
You're fuckin' up a great country, and we're tired'a that PC shit,
Try usin' a little more common sense, that's what we're payin' you for
But common sense, ain't that common, anymore.

Common sense, ain't that common, anymore,
Seems common sense is past tense just like the dinosaur,
Political correctness has got a lot to answer for
'Cause common sense, ain't that common, anymore.

Common sense, ain't that common, anymore.

No common sense, ain't that common, anymore.
