

She's Growing on Me

Kevin Fowler

I was never really ready
Most guys never are
Till I laid my eyes on her
Held her in my arms
Now she's walkin'
Even talkin'
And it's blowin' me away

She's growing on me
I love her more every day
Gotta cherish every moment
Before it slips away
She'll always be her daddy's little angel
Thank God I get to see
How she's growing on me

She'd say, "Daddy, leave the light on
I'm scared of the dark"
Now it's, "Can I borrow 50 bucks
And the keys to the car?"
No, it won't be long
She'll be on her own
Won't need me anymore

She's growing on me
I love her more every day
Gotta cherish every moment
Before it slips away
She'll always be her daddy's little angel
Thank God I get to see
How she's growing on me

There'll come a time when there's a guy
Who will ask me for her hand
Her mom will cry and so will I
Man it's hard to understand

How she's growing on me
I love her more every day
Gotta cherish every moment
Before it slips away
She'll always be her daddy's little angel
Thank God I get to see

How she's growing on me
I love her more every day
Gotta cherish every moment
Before it slips away
She'll always be her daddy's little angel
Thank God I get to see
How she's growing on me
She's growing on me
