

# Love Letter

Keyshia Cole

Every time you wrote me a love letter  
Had me thinkin' that you could do better  
But I'm calling all night and you ain't pickin' up this time

Thinkin' about all the things you've done  
See, I done went to the point of no return, babe  
Cuz I can't take my actions back now  
Oh, no, what are we gonna do now, the love is so lost, yeah  
But I'm calling all night and you ain't pickin' up  
Only crime knows where you at  
My friend's tellin' me to just let it go  
Let you calm, let you take a break  
And maybe things will turn around  
I see I done went to the point of no return  
And you don't even know  
Yeah, I done fucked up this time, baby  
Oh, yes, I did

Every time you wrote me a love letter  
Had me thinkin' that you could do better  
Calling all night and I ain't pickin' up this time  
Every time you wrote me a love letter  
Had me thinkin' that you could do better  
And you're callin' me all night, but I ain't takin' you back this time

[Verse 2: Future)

But even roses die, I can see the light  
When you're further  
Deep in the shadow of the valley of death  
I got yo back like you got mine, baby  
And fuck everything else  
And I just wanna fuck with yo mind baby to fuck everything up  
And just as long as you ain't cryin', baby to fuck everything up  
Fuck everything up  
I had a time when God has told me  
We round(?) em up, but these rings don't mean a thing  
I switched it up, got princes cut  
Shit don't mean a thing  
She on my nuts, she sayn you can't keep yo dick in yo jeans

Every time you wrote me a love letter  
Had me thinkin' that you could do better  
Calling all night and I ain't pickin' up this time  
Oh no, every time you wrote me a love letter  
Had me thinkin' that you could do better  
And you're callin' me all night, but I ain't takin' you back this time  
Oh, no

Every time I looked in yo eyes, baby  
I thought that you really loved me deep  
But see that's some shit you don't gotta teach  
Yeah, baby  
Lovin' you all night long, it feels so good  
But I gotta let it go, see I gotta practice what I preach  
Oh, this is my love song
