Thought You Should Know

Keyshia Cole

Before you start telling me things I don't wanna to hear
Before you pull up a seat let me make it clear
I can buy my own liquor, got it paid for, I'm a go-getter
I'm not a gold digger

I know it's kinda hard, not stepping to the finest thing in the club
See you getting your boss on, bottles of Patron, few bottles of bub
Not saying I ain't feeling you but there's some things that just won't do
So come on over if it's cool

You just know it's gonna take more than one drink to get me home
I know you didn't ask but I thought you should know
And it ain't that easy, not that easy to go

I thought you should know, know, know, know
I thought you should know, know, know
I thought you should know, know, know, know
I thought you should know, know, know

I'm feeling your confidence, I think it's kinda cute
The swag that make most girls give it up to you
It's hard but I know better
Gotta watch 'cause you're so clever, I just might let ya

I recognize you're built like an athlete, everybody showing you love
White Tee, fly jeans, fresh kicks, see you got just enough thug
You can say I'm feeling you, there's somethings I just won't do
So come on over if it's cool

You just know it's gonna take more than one drink to get me home
I know you didn't ask but I thought you should know
It ain't that easy, not that easy to go

I thought you should know, know, know, know
I thought you should know, know, know
I thought you should know, know, know, know
I thought you should know, know, know

Hey baby you can come talk to me
All I want is your company
Ain't no need for you to front for Kesh 'cause I like it, I do

I think you should come see 'bout me
Maybe here is where you need to be
I just want to take it slowly 'cause I like it, I do

You just know it's gonna take more than one drink to get me home
I know you didn't ask but I thought you should know
But I'm not easy, not that easy to go

I thought you should know, know, know, know
I thought you should know, know, know
I thought you should know, know, know, know
I thought you should know, know, know
