

Where's Life

Keziah Jones

Please tell me where life is
I'm feelin scared like this
Why do you ask?
Sadness"
Why should you care?
This madness kills
You're lookin like one of those reasons
You're lookin like one of those dreams
You're lookin like one of those moments
You can't fool me
I'd like to see spring
When will you be with me?
Why should you care?
Madness
Why do you ask?
This sadness kills
You're lyin!
You're lyin!
You're lyin!
You're lyin!
Moments, dreams and reasons
Moments + dreams make love
Come in season
Yeah seasons!
Where do we go from here?
These lonely roads
I fear
Wipe your tears
Don't you worry
I'll always be here
For you
You're lyin
You're lyin!
You're lyin!
You're lyin!
Look at your face!
You're lookin like one of those reasons
You're cryin !
You're lookin like one of those dreams
Look at your face!
You're lookin like one of those moments
You can't fool me
