

Hundred

Khalid

Life is never easy when you need it to be
Try to knock me down but I get back on my feet
Everybody's angry and they comin' for me (Comin' for me)
But I can't give them energy that I won't receive (I won't receive)

So I brush them off I got a lot on my sleeve
Like I'm movin' backwards but it's all on repeat
This place is getting crowded I got no room to breathe
The only thing I'm losin' isn't our memory

'Cause the world keeps spinnin' the sun won't shine on my face
I'm a keep it movin' gotta hundred things I gotta do today
'Cause the world keeps spinnin' the sun won't shine on my face
I'm a keep it movin' gotta hundred things I gotta do today

Now it's real, take your time we're almost there
Wherever we're going gotta be prepared
We'll be fine, I ain't scared, I ain't scared
People keep on talkin' 'bout what they wanna to be (They wanna to be)
Walkin' down the line but they don't live what they preach (Live what they preach)
You sharin' attributes with our old enemies
You gotta pay to live and even dying ain't free

'Cause the world keeps spinnin' the sun won't shine on my face
I'm a keep it movin' gotta hundred things I gotta do today
'Cause the world keeps spinnin' the sun won't shine on my face
I'm a keep it movin' gotta hundred things I gotta do today

Yeah, you gotta take it slow
Dust yourself off don't you lose control
You gotta take it slow
Dust yourself off don't you lose control
(Dust yourself off don't you lose control)
You gotta take it slow
Dust yourself off don't you lose control
(Dust yourself off don't you lose control)
You gotta take it slow
Dust yourself off don't you lose control
(Dust yourself off don't you lose control)

'Cause the world keeps spinnin' the sun won't shine on my face
Outta sight, outta mind, got no time
So blind, hundred days and I'm still alive, what a life
Outta sight, outta mind, got no time
So blind, hundred days and I'm still alive, what a life
Hundred days and I'm still alive
Hundred days and I'm still alive
It's been a hundred, hundred
Hundred days and I'm still alive

Had a hundred friends but I cut them off I don't need 'em
Not like any of them gave a fuck if I was breathin'
Summer's over so they switch around like the seasons
Gotta keep my guard up now I'm playin' defense
Everybody wants a favor everybody needs me
But I'm too busy tryin' to fight away all of my demons

I'm too busy tryin' to fight away my demons
Everybody wants a favor everybody needs me

Outta sight, outta mind, got no time
So blind, hundred days and I'm still alive, what a life
Outta sight, outta mind, got no time
So blind, hundred days and I'm still alive, what a life
Hundred days and I'm still alive
Hundred days and I'm still alive
It's been a hundred, hundred
Hundred days and I'm still alive
