

Eyes of Eternal Lonelyness

Khors

Sun is shining on the crystal parts of ice
Frozen flame of angry is in my soul is in my eyes.
Stars are shining with cosmic wisdom
Hate of million worlds in my hands
Million spheres of burning coldness
In the soul of wolf, in the eyes of eternal lonelyness

Million spheres of burning ice
Million spheres of burning darkness
Space of evil coldness
In my soul, in my eyes
In the eyes of eternal lonelyness
In the eyes of eternal hanger
