

# If You Hate Me

Kiana Ledé

You and me workin' hard  
This been feelin' like a 9 to 5 (Yeah)  
Head to head, back to back  
We just can't seem to see eye to eye  
I might be too extreme  
But at least you know that I tried, I fuckin' tried  
Yeah, we can go another day if you want it  
But you know it's time, yeah, it's time

You brush it off, that ain't good enough  
We gonna need way more than love if we keep this goin'  
Take a loss, gotta let you be  
'Cause I care way too much about you to keep it goin'

It's okay if you hate me  
'Cause I'm only tryna think about you, baby  
It's okay if you angry  
'Cause we don't deserve all the shit we've been takin', oh whoa

Say I'ma leave in the mornin'  
You say you hate when I'm goin', yeah  
Tellin' me that you gon' change  
Make me feel like I'm your main  
Tellin' me you had it all wrong  
Wanna see you in a happy place  
But thankful I'm honest, honest

You brush it off, that ain't good enough  
We gonna need way more than love if we keep this goin'  
Take a loss, gotta let you be  
'Cause I care way too much about you to keep it goin'

It's okay if you hate me  
'Cause I'm only tryna think about you, baby  
It's okay if you angry  
'Cause we don't deserve all the shit we've been takin', oh whoa

You know that I care and it hurts a lot  
I can't stand around, gotta call the shots  
I can understand if you don't reply  
If you hate me, oh why?  
Waitin' for a while, starin' to the wall  
Waitin' for the words to come, words to come out  
Callin' it out, we've been ridin' this too long  
Waitin' for the wheels to fall off

It's okay if you hate me  
'Cause I'm only tryna think about you, baby (Ooh whoa)  
It's okay (It's okay), if you angry (Ooh yeah)  
'Cause we don't deserve all the shit we've been takin', whoa (Whoa, oh yeah)

You know that I care and it hurts a lot (You know I care)  
I can't stand around gotta call the shots (Let me call the shots, baby)  
I can understand if you don't reply  
If you hate me

If you hate me

I can understand if you hate me
