

Mr. Solo Dolo III

Kid Cudi

Oh, oh, oh, oh
Yeah, yeah, every bottle
Ooh, ooh, ooh, ooh
Woah, woah, ah
Hmm, hmm, hmm, hmm
Ah, ah, ooh, yeah, yeah

Yeah, I take it they don't know 'bout it
Yeah, I take it, I don't need nobody
Deep in the hell and dark corners
Deep in my dreams, proceed now
Yeah, I take it they don't know 'bout it
Yeah, I take it, I don't need nobody
Can't hear me scream
Somethin' twistin' me

Say, "I'm waitin' to die," I cry
Many nights I spent gettin' fucked up, livin' the life
We get up and spread up, this tequila in me
Don't tell me to be cool, this is how cool I can be, woah
You could try readin' my mine
Been posted up for days, I'm on the miss and decline, woah
Losin' reality, been sayin' I'm fine, try my hardest to sleep
Too many issues, brother say I work through it all
Think they knowin' what the problems are
Had me goin' crazed through the city while I burn it down
This is just my way, keep on prayin' for me
Lonely in my ride as I fly, I'm just open wide
Don't wanna leave without sayin', "Bye"
Had a rough night, didn't sleep soon
Don't even worry 'bout it, wait until the Devil comes

Yeah, I take it they don't know 'bout it
Yeah, I take it, I don't need nobody
Deep in the hell and dark corners
Deep in my dreams, proceed now
Yeah, I take it they don't know 'bout it
Yeah, I take it, I don't need nobody
Can't hear me scream
Somethin' twistin' me

He's callin' me, so much go on while I blow off steam
And it's just the same, oh, look at that, only you to blame
Ah, it's like I'm swimmin' towards another bona fide life
Just like the fairy tale one, more
But inside begs just a question, why?
Nobody show me that I'm tested and I'm gonna fly
I ain't sleepin', no, that's not for me
Be what you are, don't be nothin' less, please
Hear me Lord, don't ever leave, see
I'm a man in the night in these dark streets
Somethin' else, how it felt
Take a drink, I live in excess, nothin' left
Every minute slippin' away, this is hell
They we warning him, prayin' he becomes a fool

Yeah, I take it they don't know 'bout it (Yeah, yeah)

Yeah, I take it, I don't need nobody (Yeah, yeah)
Deep in the hell and dark corners (Yeah)
Deep in my dreams, proceed now (Yeah)
Yeah, I take it they don't know 'bout it (Yeah)
Yeah, I take it, I don't need nobody (Yeah)
Can't hear me scream (Scream)
Somethin' twistin' me
