

We're getting dressed up from the waist down
If you ain't got the money I can show you how
We're going down baby going downtown baby tonight!

There's something going on
Something wrong, don't leave it to long
I got to let you know
Don't you let it grow..
Baby its been awhile
But I can take up more style then you show
You're so smooth and now I'm gonna give it to yah
I'll show you the ways but you gotta know
I'll show you the ways but you need
I'll show you the ways what you gotta know
I'll show you the ways

We're getting dressed up from the waist down
If you ain't got the money I can show you how
We're going down baby going downtown baby tonight!

You got what you need now
You got what you please now
I got to let you know
Don't you let it grow
We ain't got all night
If you can tell me what you like cause you know
You're so smooth and now I'm gonna give it to yah
I'll show you the ways but you gotta know
I'll show you the ways but you need
I'll show you the ways what you gotta know
I'll show you the ways..

We're getting dressed up from the waist down
If you an't got the money I can show you how
We're going down baby going downtown baby tonight
