

# Bad One

Kiiara

I'ma catch a flight right in the mornin'  
I just wanna be there in the mornin'  
Lately, I've been thinking 'bout the future  
And how it looks when I'm not fuckin' with you

Been running 'round my city  
The Devil tryna get me  
'Cause he knows that I go too far  
When he's with me, yeah  
When he's with me, yeah  
I don't think I like it though

He's at the hotel now, he's in some other town  
I'm with a good, good boy I try to care about  
But he don't care right now, he's in some other town  
I'm with a good, good boy  
I'm still in love with the bad one

I'm still in love with the bad one  
I'm still in love with the bad one  
I'm still in love with the bad ones  
I'm still in love with the bad one

Are you up too late? And I'm up too late  
To call and tell you that I wanna be with you  
Do you ever think that we messed this up?  
Do you ever stop and think about me and you?

Been running 'round my city  
The Devil tryna get me  
'Cause he knows that I go too far  
When he's with me, yeah  
When he's with me, yeah  
I don't think I like it though

He's at the hotel now, he's in some other town  
I'm with a good, good boy I try to care about  
But he don't care right now, he's in some other town  
I'm with a good, good boy  
I'm still in love with the bad one

I'm still in love with the bad one  
I'm still in love with the bad one  
I'm still in love with the bad ones  
I don't think I like it though  
He's at the hotel now, he's in some other town  
I'm with a good, good boy I try to care about  
But he don't care right now, he's in some other town  
I'm with a good, good boy  
I'm still in love with the bad one
