

You're s-s-s-s-s-so damn nervous
And you d-d-d-d-don't know why
In my hand and it's fully loaded
Hit send and you won't survive

You let your guard down
For the first time
Tastes bitter right now

But look at the bright side (Oh)
I know you're dead inside (Oh)
I know I gave you the time of your life
Held your heart, then I broke it twice
But look at the bright side (Oh)
Now you know what it feels like

Got me in your n-n-nervous system
You're pacin' and you're spacin' out
Every word got my initials in 'em
Ride the bus with your heart torn now

You let your guard down
For the first time
Tastes bitter right now

But look at the bright side (Oh)
I know you're dead inside (Oh)
I know I gave you the time of your life
Held your heart, then I broke it twice
But look at the bright side (Oh)
Now you know what it feels like

Wake up, shakin'
Mentally breakin'
Was it all a dream? Was it all a dream?
In a cold sweat, regret
You just wanna reset
But it's not a dream, but it's not a dream

Look at the bright side (Oh)
I know you're dead inside (Oh)
I know I gave you the time of your life
Held your heart, then I broke it twice
But look at the bright side (Oh)
Now you know what it feels like
