

Numb

Kiara

Now you got me 'cause I'm drained
Try so much my brain is going numb
More than I can take
Waiting here, I know it's far from lust
Way too fucked to say
You're the one controlling both of us
Why you tryna play?
All the words they say been lining up

All the words they say been lining up
All the words they say been lining up

You show up when I'm all alone
When I'm stuck in this zone
When I'm falling in faster than I breathe
Show up, when I'm stuck in this zone
When I'm all alone
When I'm, when I'm, when I'm, when I'm

When I'm, when I'm, when I'm
You show up when I'm all alone
When I'm stuck in this zone
When I'm, when I'm, when I'm, when I'm

Now, you got me 'cause it's faint
I can see the way you changed
Feeling all the world and the weight
Never thought that was your fate
It's always just the way, way
Never too fucked to say
I don't wanna watch you fall away
But, these days
All the words you say been lining up

All the words you say been lining up
All the words you say been lining up
All the words you say been lining up, oh

You show up when I'm all alone
When I'm stuck in this zone
When I'm falling in faster than I breathe
Show up when I'm stuck in this zone
When I'm all alone
When I'm, when I'm, when I'm, when I'm

When I'm, when I'm, when I'm
You show up when I'm all alone
When I'm stuck in this zone
When I'm, when I'm, when I'm, when I'm

All alone, I'm letting go
One day I might just go inside and cut the ropes
Ooh, I'm
I'm tired of the, tired of the fight
Got me so numb that I'm froze
I need someone I can hold
I'm so sick of feeling nothing

Body always scared of something
Got me so numb that I'm froze

You show up when I'm all alone
When I'm stuck in this zone
When I'm falling in faster than I breathe
Show up when I'm stuck in this zone
When I'm all alone
When I'm, when I'm, when I'm, when I'm
