Come swing heavy to me and I'm asking you to come along Yes I am
At least I've still got the silver
Bought with the sun still cold
Yes we will

Make your blood stop and run with me Make your blood stop and run with me

I've have a heart to love you
You don't
I have a heart to care
You don't
And you have a need to need me
And that's true
Make your blood stop and run with me

You can spill water on me
There's a heaven in the way you move
Yes there is
When I breathe you in child
Forget how I could have been
Yes I do

Make your blood stop and run with me Make your blood stop and run with me

I've got a heart to love you
You don't
I have a heart to care
You don't
And you have a need to need me
And that's true
Make your blood stop and run with me

I've got a heart to love you
You don't
I have a heart to care
You don't
And you have a need to need me
And that's true
Make your blood stop and run with me

I've got a heart to love you
You don't
I have a heart to care
You don't
And you have a need to need me
And that's true
Make your blood stop and run with me

Make your blood stop and run with me

Say what you wanna say Not much left of you Say what you wanna say Notelove is left akerdy. You
