

# Rollercoaster Ride

## Kill the Romance

Beat me down oh baby,  
push me down,  
oh baby life is good  
It's like a rollercoaster ride

In a roundabout going in or out  
Where's the goal  
where's the aim  
So fucking what  
it's just a game  
Try to live my insanity

I'm in yet I am out  
I've been begged  
and I've been kicked  
Was I burned at the stake  
I can't remember  
what a shame  
Are we stared at  
when we act  
Are we stars in our fame  
We don't need  
no-one else  
We're as cool as  
we are brave

Slowing down is  
not an option  
Thinking straight  
is utopian  
I'm doing just fine

For we believe we're  
the masters and queens  
We'll be slaves  
for the very last time  
I can feel the burn  
in my head  
What are the odds of us  
becoming what we will

So come on  
push me down again,  
now pull me up  
I want to see does it end  
Or has it even begun  
We're so insane  
We're pretty fucking brave  
What we have is deranged  
No-one else  
would ever dare

To take the path  
that follows our lead  
Our destination, vindication

Beat me down

oh baby push me down  
Now come on  
life ain't good for us;  
our rollercoaster ride  
Beat me down  
oh baby will you pull me up  
We are humanity's limit  
Can you feel the roundabout

We are stars  
We live in our own fame  
We don't need no-one else  
Now can you feel  
the roundabout

Treasure us for we believe  
we're the masters  
and queens  
We'll be slaves  
for the very last time  
I can feel the burn  
in my head

What are the odds of  
us becoming what we will  
I can feel the burn in my head  
So would it be the time  
to crown us as your kings
