

Fresh Fever from the Skies

Killing Joke

Mother, what's that light
Shining in the night?
I can't get to sleep - I'm afraid

Just above the snow there's a pale glow
Line of sight obsured - there is fear

Another shock, a firework?
Fresh fever from the skies

Markets crashing down
Nothing more than sand
Sky cracks open and I'm afraid

Change this if you can
Judgement Day at hand
When it all comes down - I'm afraid

Another shock, a firework?
Fresh fever from the skies
