Let4s go and come into my mind It4s the way where you can spread Your seeds under the ashes Your skin under the ashes Predestination is domination It4s the way that you can take Predestination is domination We fall with world4s disease Groan turns black in your sorrow We¼ll fight like motherfuckers in the night The devils wanna to play with us Predestination is domination It4s the way that you can take Predestination is domination We fall with world4s disease Groan turns black in your suffer We¼ll fight like motherfuckers in the night The devils wanna to play with us We¼ll never stop to fight with our guns The devils wanna to play with us Here is the world4s disease It4s time to devil4s creation Here is the world4s disease It4s time to devil4s reflection We¼ll fight like motherfuckers in the night The devils wanna to play with us We¼ll never stop to fight with our guns The devils wanna to play with us
