

Feed My Demon

Kim-Lian

six o'clock and now
it's banging in my head
I have to get it out my bed
six o'clock and still
the buzzing is real bad
I have to say the feeling's dead
if you want it now get it some how
if you want it now
I blew a kiss your way
persuaded you to stay
so many things still left unsaid
I know that what I want
I'll most definitely get
I life my live without regrets
if you want it now
get it some how
if you want it now
I gotta feed my demon
it hungers out loud
I gotta treat my demon
without any doubt
look into my eyes
a demon in disguise
danger 'cause I'm haunting you
come work with me
give me what I need
I've got a demon to feed
treat my demon well
or I will cast a spell
my revenge will taste so sweet
if you want it now
get it some how
if you want it now
I gotta feed my demon
it hungers out loud
I gotta treat my demon
without any doubt
I gotta feed my demon
it hungers out loud
I gotta treat my demon
without any doubt
I gotta feed my demon
it hungers out loud
I gotta treat my demon
without any doubt
I gotta feed my demon
it hungers out loud
I gotta treat my demon
without any doubt
