

Starlight

Kim-Lian

starlight
shining over me
it's always near
starlight
over me
you can look but do you see
starlight
misconceiving me
it's never clear
starlight
covers me
showing you
someone I'll never be
in this light
it is all so dark
nothing's what it seems
and I hear you
and I feel you
I cannot breathe in here
starlight
surrounding me
I cannot breathe
starlight
draining me
you're tearing me apart
in this light
it is all so dark
nothing's what it seems
and I hear you
and I feel you
I cannot breathe in here
darkness
is comforting to me
it's all so clear
in here
starlight
just let me be
turn away to set me free
see what you to want see
hear what you want to hear
selective
selective
selective
selective
right now
everything is wrong
in this starlight
