

Teenage Superstar

Kim-Lian

Say goodbye
To your boyfriend
She's in town
For the weekend

She's so hot
And your not
Girl she sing for it all
And take a stand

Number up now
She's second-hand
You'd better kick her ass now
She's black light

A daylight
And now she's waken around
Be aware she's coming your way
Don't be scared

Don't let her stare
She's a teenage superstar
Always got her VI funky cars
She think she can turn back time

Make you lose your mind, yeah
She's a teenage gone too far
Poor, little superstar
Say hello

What's your problem
And take control
You really gotta show them
She's so thick

A mistake
And now she's waken around
Be aware she's coming your way
Don't be scared

Don't let her stare
She's a teenage superstar
Always got her VI funky cars
She think she can turn back time

Make you lose your mind, yeah
She's a teenage gone too far
Always in a brand new freaky car
She think she can have it all

Break just anyone
Teenage superstar
Gone to far
Superstar

Say goodbye to your boyfriend
She's a teenage superstar

Always got her VI funky cars
She think she can turn back time

Make you lose your mind, yeah
She's a teenage gone too far
Always in a brand new freaky car
She think she can have it all

Break just anyone
Poor little superstar
