

Turn Me

Kim Richey

I can see the stars fool the lights
Maybe we could leave them all behind tonight
Find a place where nobody goes
Quiet place where nobody knows we're still awake

Turn me slowly, say it only if you can
And words won't matter, you only need to understand
That I'm not going anywhere without you

Why you start to hum when you touch me?
I'm gentle as they come when I wanna be
This is not the time for regrets
We have seen the worst and the best put to the test

Turn me slowly, say it only if you can
And words won't matter, you only need to understand
I'm not going anywhere without you
Without you, without you

Turn me slowly, say it only if you can
Words won't matter, you only need to understand
I'm not going anywhere without you, without you
