

# Waltz Me to the Grave

Kimbra

[Verse 1:]

Remember oceans  
Violet parasols  
Black sand beach, where we'd lay  
You had stones for irises  
I was so sure it was fate  
Sea was lapdancing the tide  
He said "Don't look back, we're heading south"  
I loved this world with all I had  
Now I'm ready to go

[Chorus:]

Waltz me to the grave  
Savour every moment we've made  
Dance me down to the ground that I came from  
Waltz me to the grave  
Waltz me into sleep that won't wake  
Spin me round to the sound that I came from

[Post-Chorus:]

Holy head of stone  
Finally I am found  
So dance me down to the ground

[Verse 2:]

Remember floating on lakes of evergreen  
So much love and disarray  
You were always my unrest  
But I was so sure it was fate  
Sea was lapdancing the tide  
He said "Don't look back, come with us now"  
I loved this world with all I had  
Now I'm ready to go

[Chorus:]

Waltz me to the grave  
Savor every moment that's made  
Dance me down to the ground that I came from  
Waltz me to the grave  
Life was not a moment of grace  
Spin me round to the sound that I came from

[Post-Chorus:]

Holy head of stone  
Finally I am found  
So dance me down to the ground

[Break]

[Outro:]

Waltz me to the grave  
Waltz me into sleep that won't  
Waltz me to the grave  
Life was not a moment of grace
