

## Work This Time

King Gizzard & The Lizard Wizard

I knock hello  
But I see that you've got hypothermia  
So I place a block to stop the rot  
And hope that I can warm you up

Do I have to shake you babe until you're blind?  
'Cause every light bulb's blown and I'm feeling so inclined

Can never lay my whole head down  
Can never lay my whole head down  
Can never lay my whole head down  
I know I'm lazy but baby I will work this time

It's kind of funny  
That I live the poetry I can not write  
But you my beauty  
Shall be fixed forever loosely in my heart

Do I have to shake you babe until you're blind?  
'Cause every light bulb's blown and I'm feeling so inclined

Can never lay my whole head down  
Can never lay my whole head down  
Can never lay my whole head down  
I know I'm lazy but baby I will work this time
